INSTRUCTION IN MUSIC.

INSTRUCTION IN MUSIC.

THE UNDERSIGNED wishes to acquaint his friends and the public that he will continue the duties of his profession in giving instruction on the Piano and in Vocal Music; also lessons given on the Organ and Seraphine, with the Science of Harmony, at his residence, or at the private dwellings of his pupils.

The arrangements are such that pupils commencing or already advanced in their musical studies can, at their option, receive such lessons as may best promise their improvement. It is, also, of serious interest to those who wish to be well instructed in music, that they should begin and follow the first courses of lessons in as regular order as possible, as all future success will depend upon it.

His recommendations for success in teaching for the last ten years in Washington and vicinity are of the highest character, and he feels confident that he is able to impart instruction in an easy, brief, and profitable manner. He solicits an early call from those interested, so that they may secure convenient hours for their lessons. All necessary information will be given to persons by calling at his residence, (14th street, between F and G streets,) or by leaving their names at the music stores of Mr. Davis, Mrs. Anderson, and at the Musical Depot of Mr. George Hilbus, where orders left will be punctually attended to.

\* BETTER THAN GOLD!

PORTSMOUTH, July 9, 1851.

Mr. J. E. Bouss-Dear Sir: I feel it a duty to make known the benefit I have derived from Dr. Hampton's VEGETABLE TINCTURE. For a number of years I suffered from disease, but to a greater degree for the last three years. One of the forms of my disease was dyspep-sia. From this dreadful malady I suffered to such an exsia. From this dreadfal malady I suffered to such an extent that life was really a burden. The attack of it on me was different to that on any other person of whom I have heard; at times it was like the palpitation of the heart; there was a constant thumping and heating without intermission about the region of my heart, chest, and stomach; some of the attacks would last for weeks; my stomach was much distended, with constant pain, great weakness, and constipation of the bowels. I could not eat the most simple food without pain. I also suffered greatly from disease of the kidneys, with constant pain in the back, that I could walk only with great difficulty. I tried nearly sill of the most celebrated patent medicines of the day, but found no relief. I had also the best medical attendance. One of my physicians frankly told me it was of no use for me to be paying him for advice, as he could do me no good. I gave up almost in despair, and thought my disease certainly incurable.

At this juncture I heard of Hampton's Vegetable Tine ture. I refused to give it a trial, aithough persuaded by my friends, until my son purchased a few bottles, and requested me to try it; after taking it a few times, it had a most happy effect on me: my confidence increased, and after taking three bottles, my dyspepsia, or disease of the stomach, was nearly if not entirely cured. I now feel myself a new man, and in better health than for years. I am certain the cure in my case was made by this Hampton's Vegetable Tincture alone. Since my cure I have recommended the tincture to a number of my friends, who have also been relieved by it. Some of the cures have been as rapid and equally wonderful as mine.

I present my respects to Messrs. Mortimer & Mowbray, the proprietors of this valuable medicine, and say to them its value is above price: and from my cure, and what I have seen of its effects on others, I shall ever feel it my duty to recommend it to the auffering. I have no doubt many valuable lives will be prolonged by its use. I hope the a tent that life was really a burden. The attack of it on

The above is extracted from a letter from a gentleman sixty years of ago, and of high character. He says: "I have given but a faint idea of my sufferinge; I feel inadequate to the task." We also have received, in the last few days, letters from two of our most worthy and well-known citizens, giving two remarkable cures of spinal disease. But yesterday one of the oldest merchants reported that he was cured of neuralgia of the head, of years standing, and so bad that his teeth fell out from its effects. Call and see letters. Was there ever so many cures, wonderful cures, made by any other medicine. All we sak of the afflicted is that they try Hampton's Vegetable Tincture, the great purifier of the blood and cure for all chronic diseases, as dyspegisla, rheumatism, serofula, and all complaints of the stomach, bowels, &c.

STILL ANOTHER of our most talented and highly respectable citizens speaks for Hampton's VEGETABLE TINCTURE:

BALTIMORE, July 18, 1851.

Mesers. Mortimer & Mowbray:—Gentlemen: My daughter having been afflicted for more than a year with the spinal disease, and having tried every remedy that was prescribed by some of our best physicians, without affording her any apparent relief, I fortunately was advised by a friend to try a bottle of "Dr. Hampton's Vegetable Tincture," which relieved her of her pain in less than twenty-four hours. I am pleased to say that since she took it she has been free from pain, and she is gradually gaining strength, which I attribute entirely to the restorative properties of this medicine. I believe if it were more extensively used, it would do more good in the removal of such diseases incident to the human family than what is usually prescribed.

BRITISH QUARTERLY REVIEWS.

WING to the late revolutions and counter-revolutions among the nations of Europe, which have followed each other in such quick succession, and of which "the end is not yet." the leading periodicals of Great Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treaties to be furnished by the historian at a future day. Whoever reads these periodicals obtains a correct and connected account of all the important political events of the Old World, as they occur, and learns the various conclusions drawn from them by the leading spirits of the age. The American publishers therefore deem it proper to call renewed attention to the works they publish, and the very low prices at which they are offered to subscribers. The following is their list, viz:

The LONDON QUARTERLY REVIEW, manufacturers. Catalogues in the French, Spanish, German, and Eng-

The Westminster Review, and Blackwood's Edinburgh Charly and firmly expressed, of the three greatest parties in England—Tory, Whig, and Radical; "Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Liberal. The "North British Review" owes its establishment to the last greatecclesiastical movement in Scotland, and is not ultra in its views on any one of the grand departments of human knowledge. It was originally edited by Dr. Chalmers, and now, since his death, is conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order. The "Westminster," though reprinted under that title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage, by this combination, of uniting in one work the best features of both, as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—Blackwood's Magazine being an exact fac simile of the Edinburgh edition.

Mr. Robert Scars—Dear Sir: I have looked over the entre series of your valuable publications with much interest and profit; and am quite surprised at the amount of literary labor you have performed, and the research it must have cost you to obtain so many fine illustrations, while you have an active superintendence of an extensive business. I am also gratified at the decidedly moral and religious influence which your books will exert, and canot but hope that they will do much to counteract the effects of that light and immoral literature which deluges the land, and, like the frogs of Egypt, comes up even to the kneading troughs of our kitchens. May you live long to follow your plans.
